Topic - XOXOS

SUBMITTED BY-

21103020 - Neha Mittal

21103007 - Shaily Sharma

21103004 -Harsh Sharma

21103013 - Harshit Singh

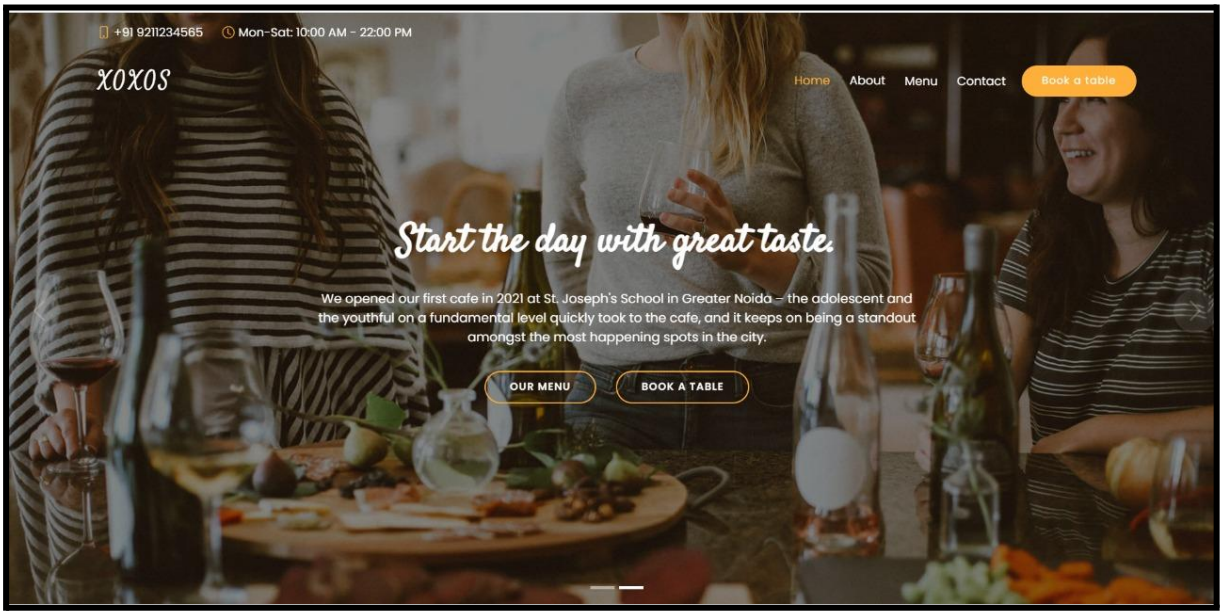
SUBMITTED TO-

MR. ANKIT VIDYARTHI

Date of submission - 3rd December , 2022

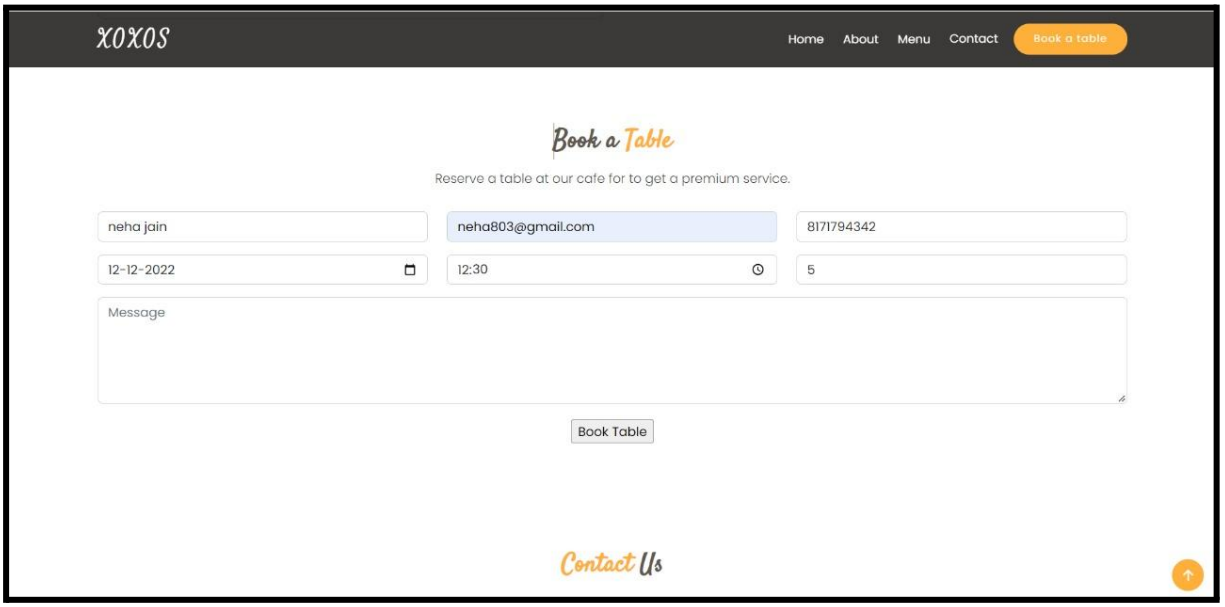
MODULES-

1. WEBSITE :-



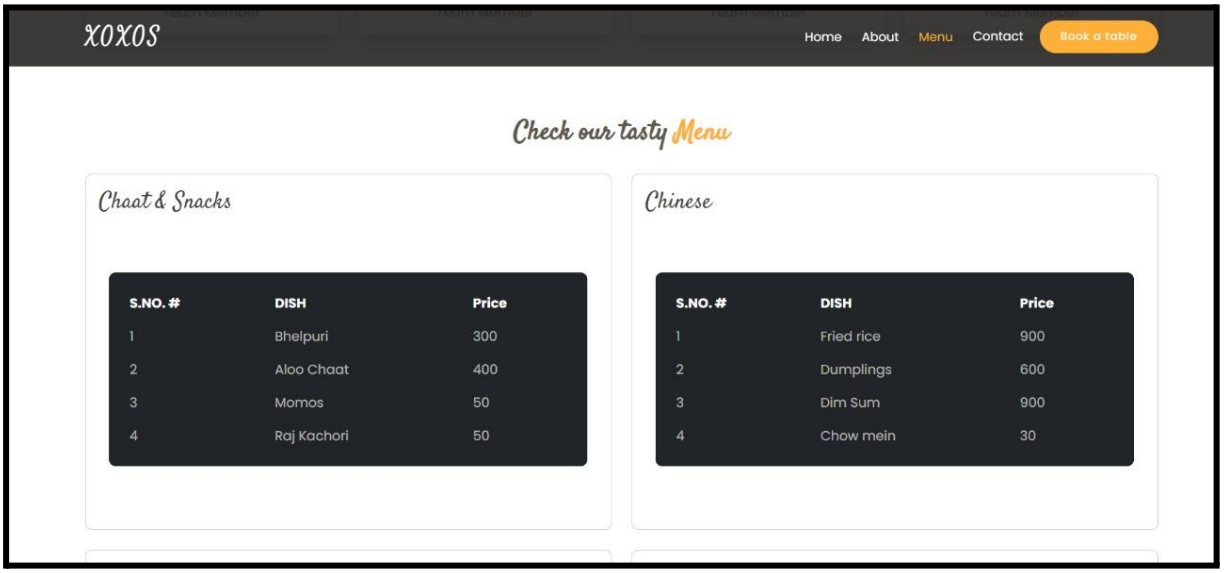
^homepage of the website

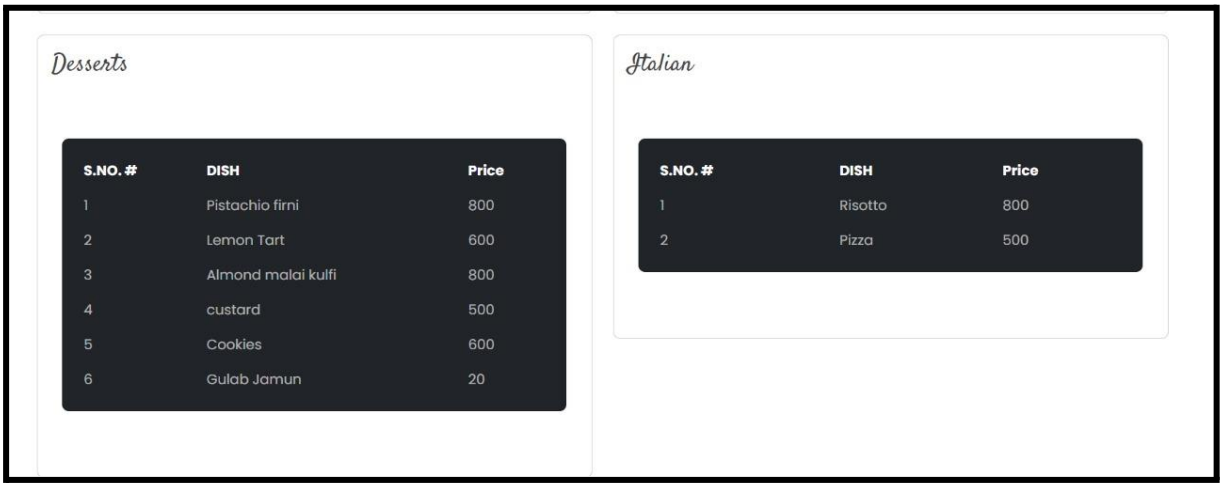
BOOKING -

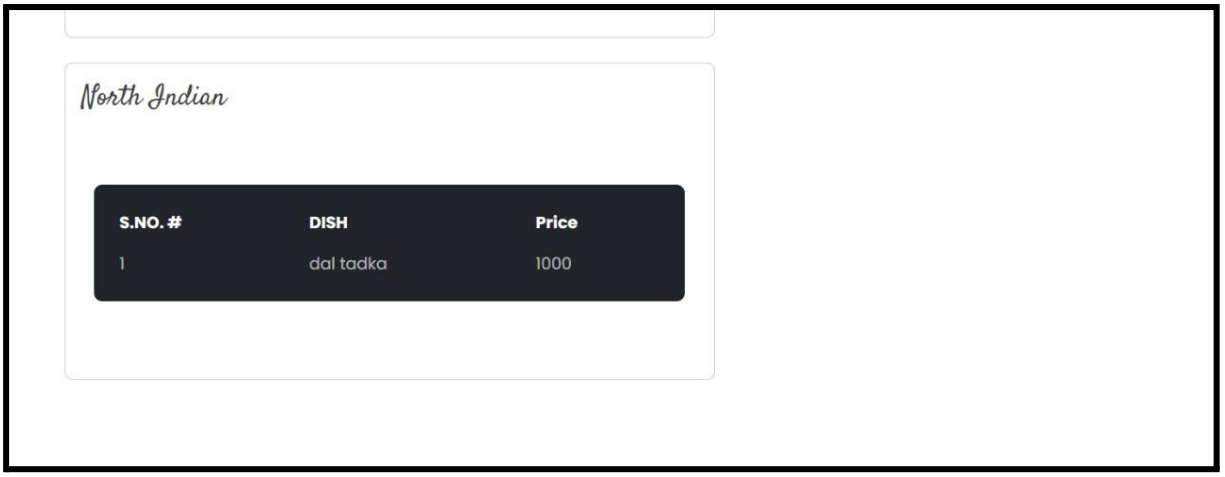


^when a user books a table they will be automatically registered as a user and their name will be inserted in the user table in the database

MENU-

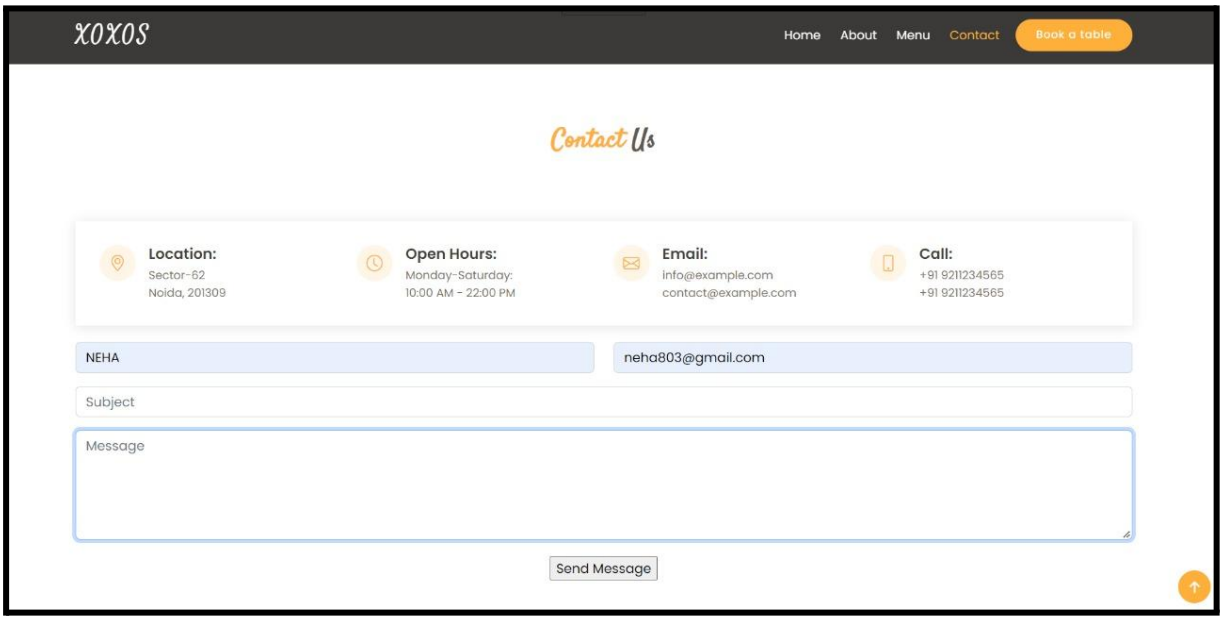






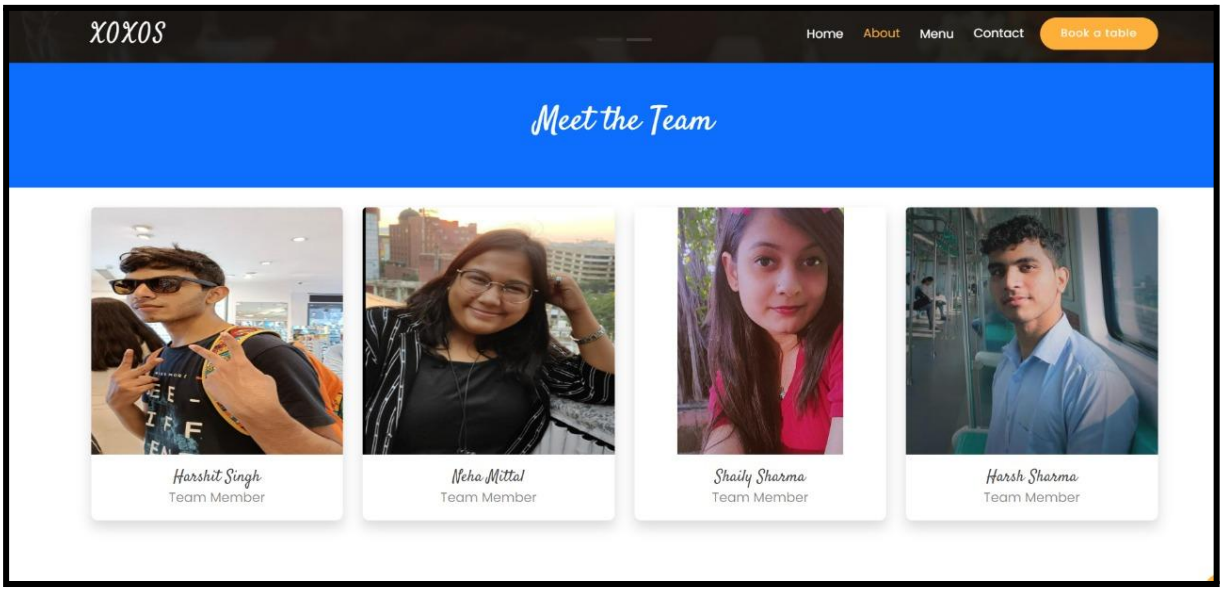
^This displays menu in which each category is displayed with its respective dishes.

CONTACT US -



^when a user fill information of contact us and submit , it will redirect the user to a mail with details already filled in

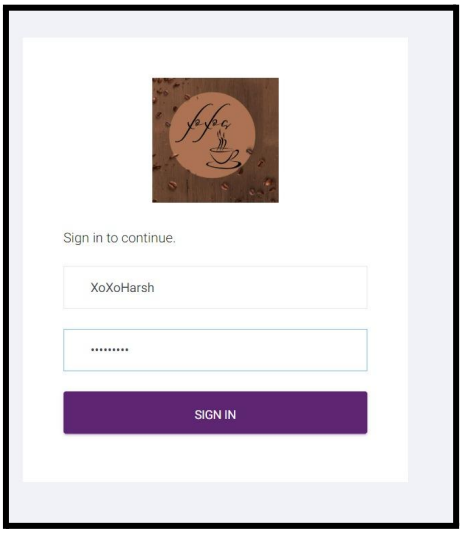
ABOUT US-



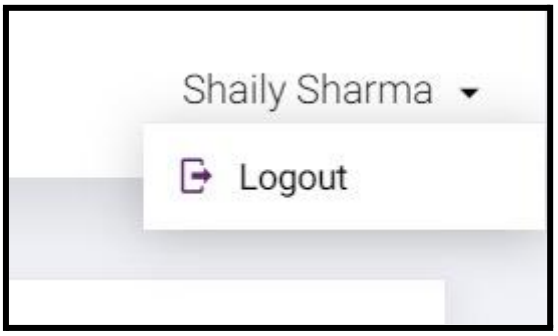
^Photos of our team members and their respective name

2. ADMIN :-

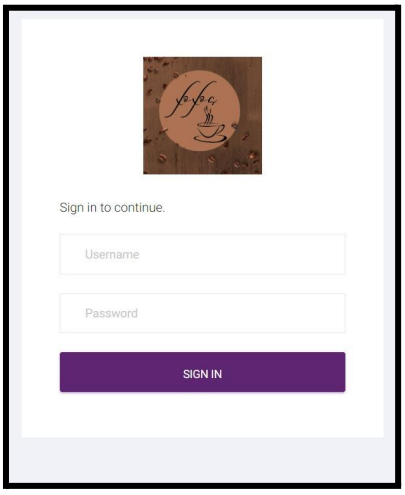
REGISTER/LOGIN -



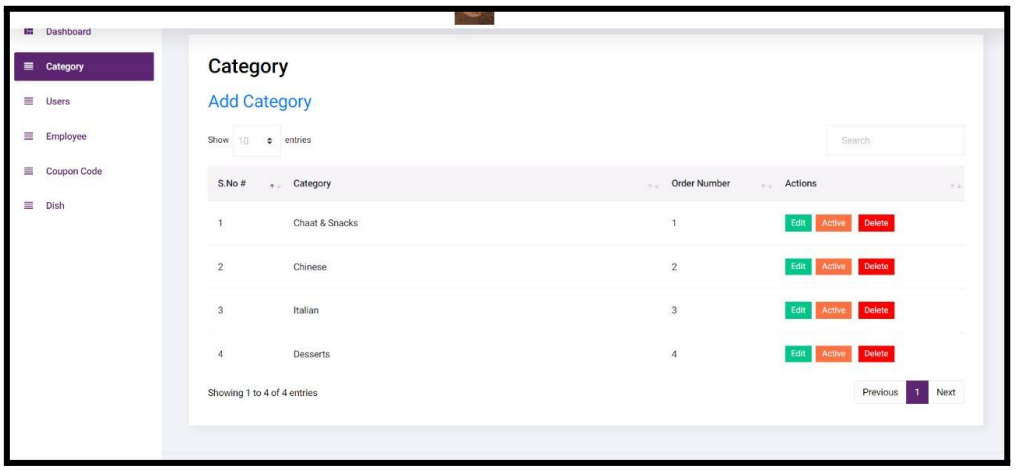
LOGOUT-



^After we logout , we are redirected to the login page where a user can enter his/her details.

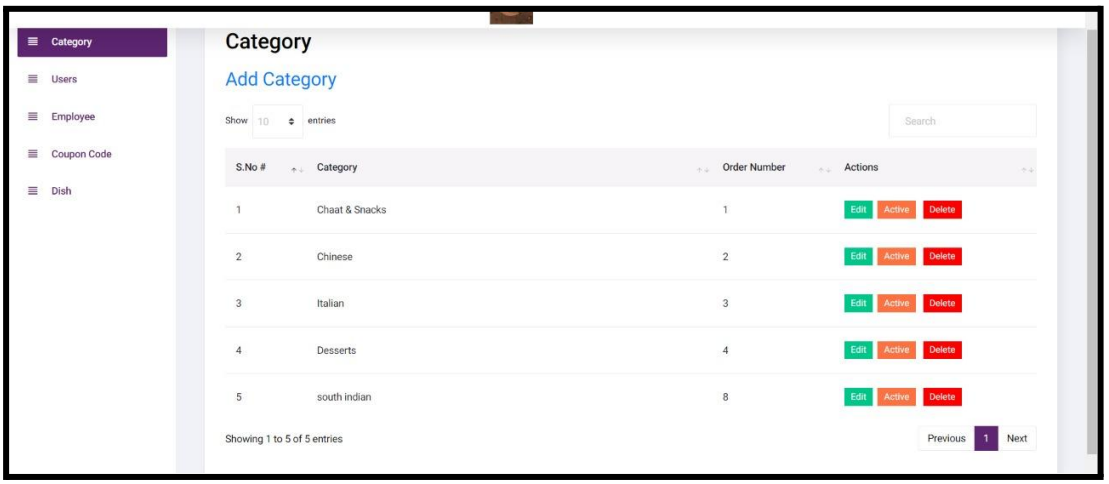


CATEGORY -



1. ***Add Category -***

We have added a category called south indian with the order number 8 and we can perform multiple actions on it like edit active and delete.



2. ***Edit -***

   This action is used to edit or manage the category , using this functionality we can change the name of the category or the order number or both.

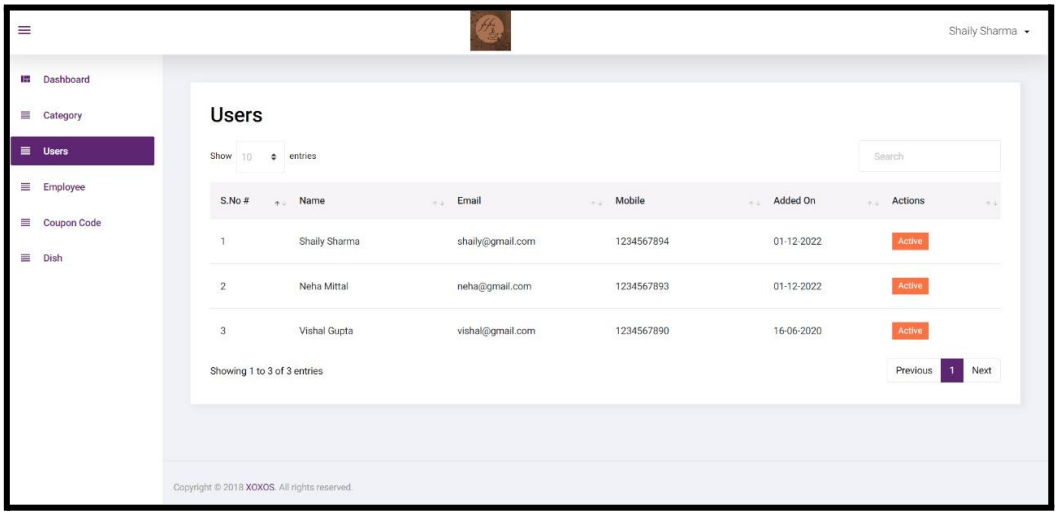
3. ***Active -***

   Active functionality is used to either activate or deactivate the category. For example we can deactivate cold beverages during the winters and activate it during the summers.

4. ***Delete -***

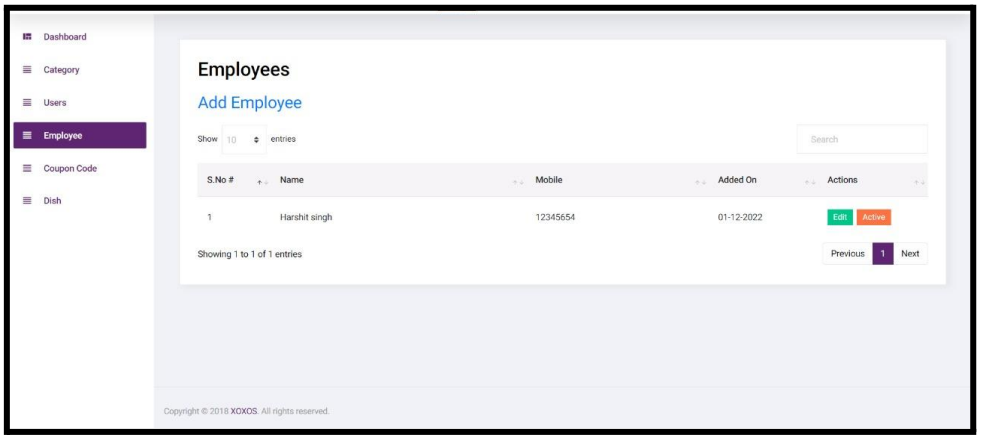
   Delete functionality is used to delete the category from the category and after we delete a category , it will not be displayed in the category.

USER-

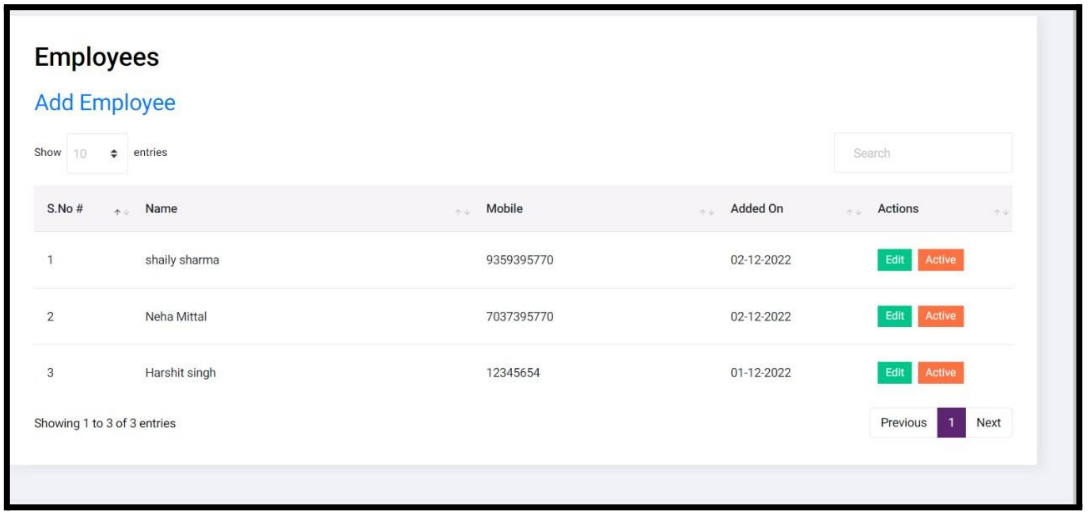


This functionality shows all the details of the users such as name , email , mobile number and the date on which the user was added. We can also activate or deactivate the user as per our convenience , we have also used a drop down to show how many entries we want to display.

EMPLOYEE -



1. ADD EMPLOYEE -



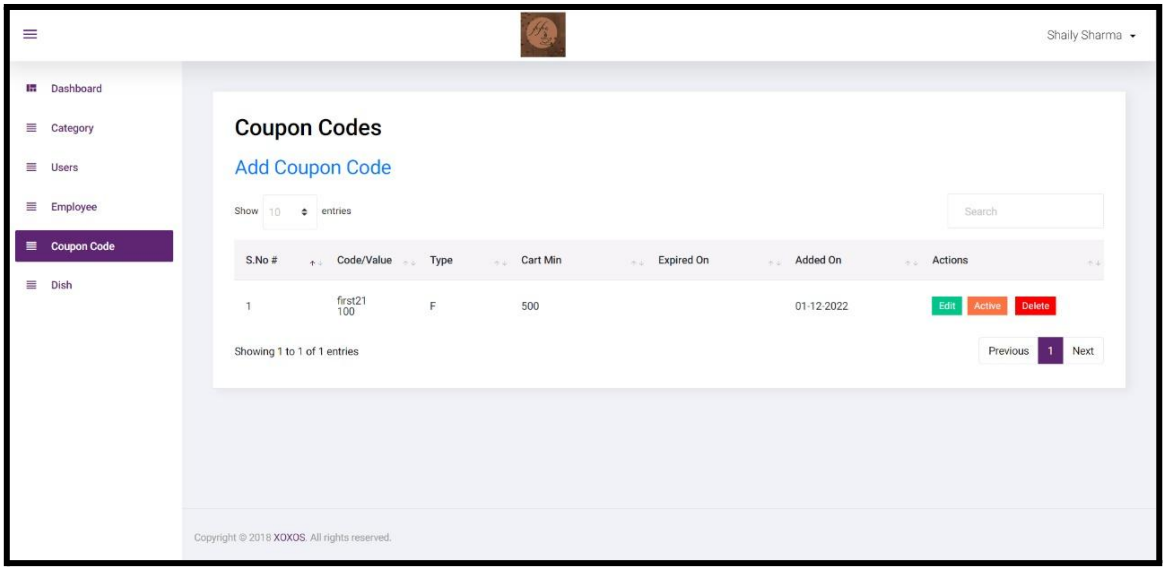
2. *EDIT EMPLOYEE*

This functionality is used to edit the information of an employee such as name , mobile number and date on which employee was added.

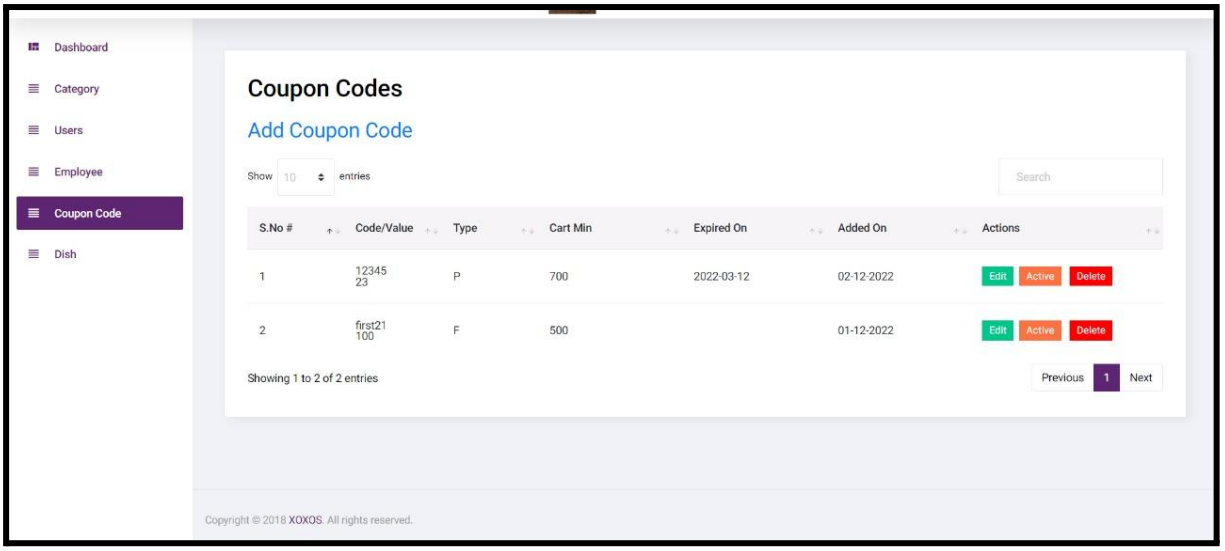
3. *ACTIVATE OR DEACTIVATE AN EMPLOYEE*

It is used when an employee leaves or join the cafe temporarily we can use this functionality to enter or remove the database.

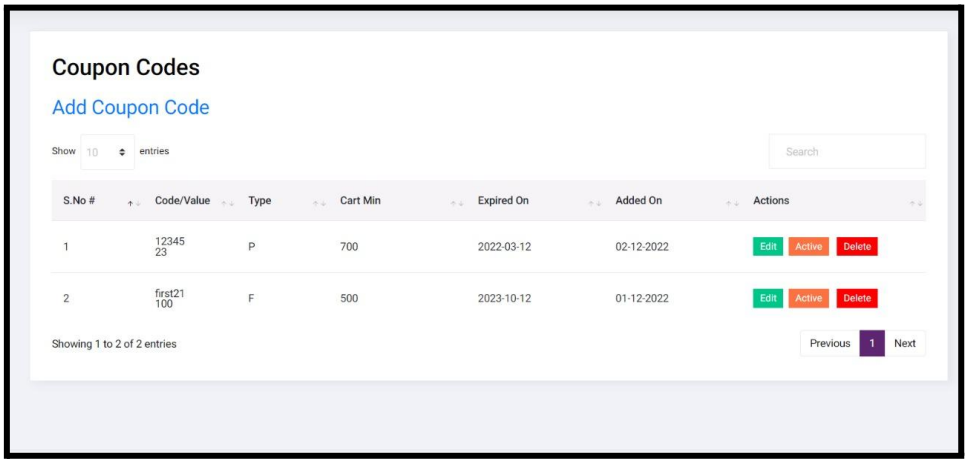
COUPON CODE -



1. *ADD COUPON CODE*



2. EDIT COUPON CODE



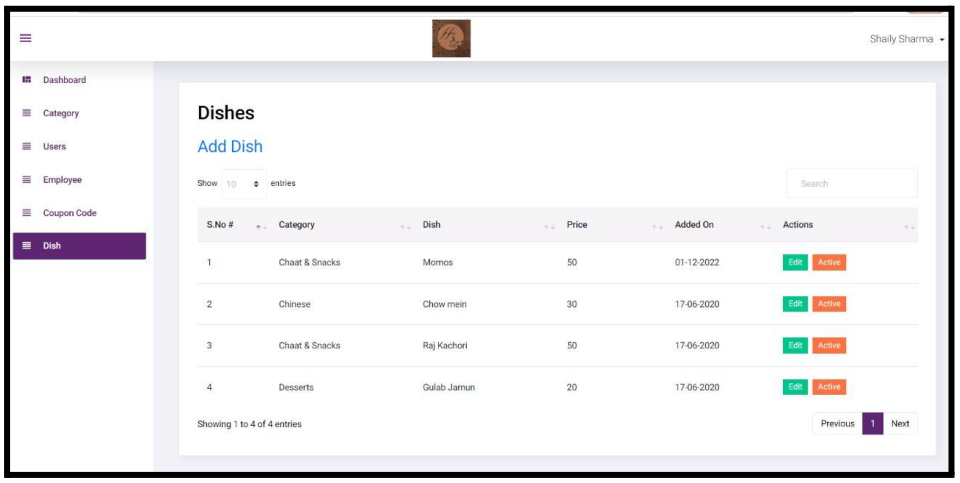
3. ACTIVE COUPON CODE

To activate or deactivate a coupon , each coupon has an expiry date and we can deactivate a coupon after it has expired.

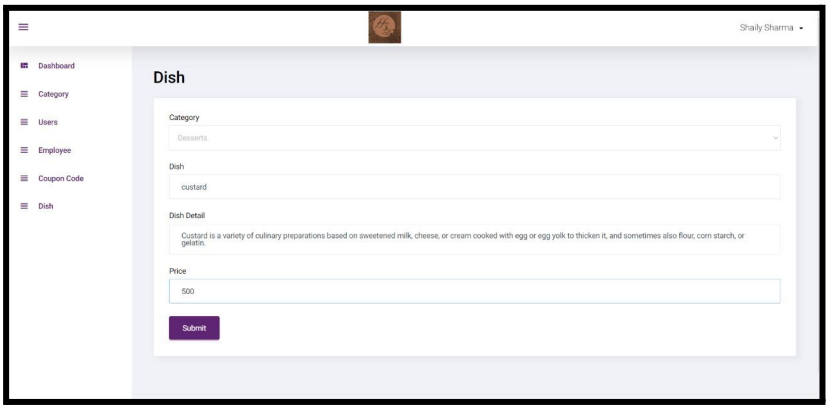
4. DELETE COUPON CODE

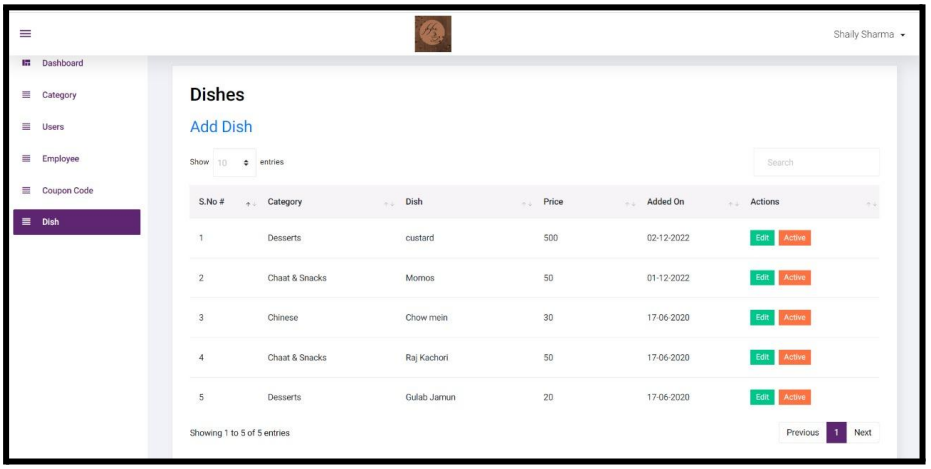
To delete a coupon

DISH-



1. ADD DISH





2. EDIT DISH

This is used to edit the name , price of a dish.

3. ACTIVATE / DEACTIVATE A DISH

To activate or deactivate a dish according to the user
